Can Bayshore be a (more) Popular Place to Live? Of Course!

Come find out how at the Bayshore Gardens Neighborhood Assoc. "Restore Bayshore" committee meeting Thursday, November 13 at 7:00 pm at the Rec. Hall. This is not a "gripe" session, this is a "DO" session and we are having participants from the County come and work with us.

By now, we should all know the issues facing us; your complaints have been taken into consideration through the Town Hall meetings, BGNA meetings, the Bayshore Banner, and just conversations among people here. Now we want your ideas for solutions, and there are solutions!

The County has had numerous planning meetings, advertised in the paper, held numerous neighborhood work sessions, all through the past year to get input from us and tell us their plans that focus on revitalizing older neighborhoods. Bayshore Gardens needs to get involved on this movement. You have attended County at Town Hall meetings here, you have heard or read about the South West County Tax Increment Finance District Improvement Plan (SWTIF), a "neighborhood reinvestment"; you have heard or read of the County's "How Will We Grow?" initiative.

Now we all need to take action to pursue what we want to see happen in our community and we all need to keep an eye on County activities.

If you haven't noticed, we have a unique situation

here that's not available to everyone, including upscale neighborhoods, -a much desired and coveted waterfront facility on Sarasota Bay, complete with a (rare) sailboat marina. We are located in the middle of everything: schools, colleges, beaches, museums, performing arts theatres, good services, good shopping, good restaurants and IMG and an airport right around the corner; plus we can offer an "old Florida" flavor as we are a "50's" community.

You also know, per reports in our paper, we are also in the midst of pursuing a Historical designation for Bayshore Gardens. We now have a Site Number and Maynard Boyce has paperwork going for the next of several (involved) application phases.

Let's get going Bayshore. We are a mid-century community and Mid-century style is now a top trend. This is our chance at a big come-back and our chances to succeed are big if residents become a part of this movement. Your part can be whatever time you can give to whatever task you see needs to be pursued.

To get the 8-page "Restore Bayshore" outline of the 8 objectives emailed to you, or a hard copy for just 80 cents, call 941-753-7433. To find out how to get a SWTIF final draft and/or the updates call: 941-749-3029 or : www.mymanatee.org/econdev.

See you at the meeting in November.
Suzanna Young, Chair

Bayshore Gardens Small Boat and Launch Facility. You Now Have One!

Been Out on the Bay Lately? After a 50-year wait, Bayshore residents will now be able to keep a small sailboat or kayak or any other small watercraft down at the park and go boating at their pleasure. We have Sarasota Bay at our doorstep and now we have an affordable way for more people to enjoy it!

At this juncture, the office will only be taking names and numbers for space reservations and type of watercraft. Completion details will still be underway into November.

Watercraft can only be 16 feet or less. Sorry, no motors allowed. You will be able to rent a boat space or kayak/canoe rack storage. Owners can provide wood timbers to set their boats on or store kayaks and canoes on stands provided. This will be addressed prior to occupancy.

When ready for actual occupancy, on Saturdays or by

appointment, your boat can be taken into the enclosure by the District maintenance staff. (Of course you can assist!) No vehicles or trailers will be allowed inside the enclosure. You will have a key to the pedestrian

gate on the north end and the south beachside gate. You will be able to port your watercraft to the water by way of boat dollies provided. This is how it's done at similar boating facilities. Gates must be closed and locked when not in use. Once the boat is deposited at the beach, you return the dolly to the station. When you set out on the Bay, the (beachside) gate

must be locked behind you. Upon return, the reverse operation occurs. There will be a spigot and hose to rinse off the boat before returning it to your space.

This recreational component has been a long time in coming and we hope to see people exhibit good sportsmanship and responsibly use this very special facility.

BAYSHORE GARDENS THANKSGIVING DINNER

Thursday, November 27

Bayshore Gardens Recreation Center

*Please come and celebrate Thanksgiving
with friends and neighbors*

Catered dinner \$10.00 adults - \$5.00 children

We would like to talk to him about a recent vandalism at our pool. If you recognize him, please call the office @ 755-1912

The Thanksgiving Feast

The English colonists we call Pilgrims celebrated days of thanksgiving as part of their religion. But these were days of prayer, not days of feasting.

Our national holiday really stems from the feast held in the autumn of 1621 by the Pilgrims and the Wampanoag to celebrate the colony's first successful harvest.

There is only one written account of the first Thanksgiving, and turkey isn't mentioned. And cranberry sauce and mashed potatoes were not even invented yet! In addition to duck and venison, the diners likely enjoyed squash, seafood, cabbage, onions and corn.

The 1621 feast was not one big sit-down meal. Meals were eaten throughout the colony, both indoors and out, for almost a week. Some meals the Wampanoag and the English ate together, and other times the two groups ate separately.

Between meals the Pilgrims and the Wampanoag played games. The Wampanoag might have taught the English the Pin Game, where a player tried to toss a small ring into a pin.

In addition to games for the children and target shooting for the adults, there was also singing and dancing among both the Wampanoag and the Pilgrims.

Meeting Minutes

MINUTE WITH THE MANAGER: Another season at Bayshore Gardens pool is coming to a close. The days are getting shorter and the air is getting cooler. The pool will be closing now at 6:00 pm. I am not sure when the pool will be closing for the season. Just remember when the water temperature is below 70°, we will be closing the pool. The boat slips and trailer space renewals are almost complete. There are four boat slips still outstanding. If your gate key to the ramp is not working, chances are you didn't renew the key. The renewal for gate keys is October 1st and we give you until the 15th of the month to renew. All unpaid gate keys were removed from the system on October 16th. Tuesday, November 11th is Veteran's Day. Let's remember to honor those who served. The office will be closed on the 11th, 27th and 28th.

Joanne Manse

Chairman, Maynard Boyce

If we can get past this month the 2014 Atlantic Hurricane Season will officially come to a close. Hopefully I won't jinx us by saying that we have been lucky for yet another year. Hooray for us all. Things are starting to move in the Marina with regard to the dredging, replacing of the finger piers, and potentially the long awaited rehab for the boat launch ramp. Facts are still being gathered but it appears that the dredging itself may cost less than was anticipated. Potentially this will free up the money needed for the ramp project. Very exciting stuff since, with the completion of these projects, our marina's facilities will have enhanced safety, longevity, appearance and usefulness. The neighborhood will regain one of the gems of Bayshore Gardens, one which we can all be proud of. On that note I will wish everyone a Happy Thanksgiving. I hope that you are able to enjoy the day.

Reminders – Gate Key annual renewals were due the first of October. If you have not renewed your key will no longer work. Vehicles with trailers attached must have a parking decal. Don't loan out your Gate Key. If you are bringing a guest that is towing a boat, you must remain with them at all times. Arrangements must be made for tow vehicles with trailers parked in the Marina without decals.

Improvements - The Marina Committee Continues to work the dredging issues. Soil samples from the boat basin bottom are to be evaluated for contaminants. This will tell us if the spoil from dredging will be able to just go out as fill or if special handling will be required. Design drawings for the new finger piers and the dock reconfiguration are being worked up.

Garden Club

Join us on Monday, November 3rd in the Board Room of the Bayshore Gardens Recreation Center at 1 pm. Our program, DECORATING WITH FRUIT, will be presented by Caterer Winnie Denny-Smith. This is a wonderful opportunity to get some new creative ideas for the upcoming holiday season. Tammy Terra-Melat will provide refreshments at this meeting.

On the agenda will be planning our Christmas luncheon on December 8, picking a nominating committee for 2015 officers and designating our year end donations.

Our October program was presented by Judy Drake who gave some very interesting facts on Pumpkins. She discussed and shared several Pumpkin recipes, types of seeds available and planting time, which she suggests getting seeds planted in June for fall harvest. At the end of her presentation we had the opportunity to create and decorate some harvest/Halloween bags.

"Benefits of a Professional Facial"

Did you know there are 43 muscles in the face alone? Massage, particularly facial massage, is one of the most relaxing and therapeutic aspects of topical facial treatments. However, it is more than just feeling good. A professional facial tones the facial muscles much like exercise tones the body muscles. Facials also can improve many

skin conditions including acne, rosacea, inflammation of the skin and can improve circulation, leading to a more youthful complexion. Leesa, a professional esthetician at Looks by Toni Rachele, is offering an introductory, one-hour European facial for \$40. Come by and meet Leesa and take advantage of this special offer. What makes a house a home. YOU do of course! That is, you and your family plus your choice of furnishings and accessories. When you want your home to reflect your personality, it's sometimes hard to find just the right piece for inspiration. For some ideas and great shopping, you should visit the new and improved WHITFIELD EXCHANGE CONSIGNMENT STORE. We have moved to a convenient location 3 buildings south of the old location (across from Oyster Bar). There is a traffic light on US 41 for easy entry and exit and we have a large parking lot.

We have some new friendly faces to serve you and the store is very spacious filled with quality furniture and high end items at great prices. Whitfield Exchange takes pride in being your

neighborhood consignment store where you can feel at home and comfortable shopping at your own pace. We love to bring the community together in our efforts to give back. It was a busy summer with our August sale and food drive. We donated to Learn to Fish which provides help for women and children and to a local food charity. Our consignment store ensures you personal service that is sometimes lacking in the "big-box" stores. We think you will be delighted when you visit us and find something special that belongs in your home.

The staff of Whitfield Exchange wish to thank our local residents for supporting us all year. We also look forward to seeing winter residents back shopping with us soon. We welcome both our regulars and new customers.

2014 BAYSHORE GARDENS KID'S FISHING TOURNAMENT

After a twenty four hour weather delay, Sunday was perfect for fishing and the awards ceremony.

The whole thing would not be possible without the generous support from your local business community. Our two equipment suppliers, Jim Ellason at Discount Tackle with great tackle and a complete line of fishing kayaks also John Guy at Fishermen's Headquarters with a wonderful line tackle and a full line of sailboat hardware.

First Federal bank and the Bayshore Gardens Rec. Center both with very generous cash donations. Anna Maria Oyster Bar, Perkins Restaurant & Bakery, The Banana Factory and A Cut Above donated gift certificates which we raffled off so the adults could win something nice too. It brought in over one hundred & seventy five dollars, which will get us started next year. Karen Bell of A P Bells Fish House supplied us with a very high quality supply of fishing bait which seem to do the trick for our fishermen.

We had four age groups, (A) 6-8, (B)9&10, (C)11 , (D) 11-14. and we can't forget our volunteer from the High School, Amanda Courtney, caught a 9" sail catfish.

Our boat captains deserve a standing ovation for their wonderful performance giving our fishermen a safe and rewarding day on Sarasota Bay. This is a day the kids will long remember, thank you for your generosity; Mike Dolan, Carman Mc Donald, Bill Wyatt and Richard Nelson, Alberto Teijelo, Rick Gullet, Michael Van Etten, Seamus Leonard and myself. Hope everyone had as much fun as I did.

Behind the scenes making the whole thing work was John Woodruff getting bait, setting up the porch and helping with food. Melanie, Lee and Ursula were also in there helping. The founder of KFT, Rose Woodruff was there to supervise, Rose and Joyce fisher handled the registration on Friday and Saturday. All the wonderful signs you've seen around Bayshore were made by Suzanna Young. Special thanks to Terry for running the raffle and doing all the score keeping. Rob, thanks again for a great job as our Master of Ceremony. You really seem to be having such a good time working with the kids. All photos by the official KFT photographer Vic Kasparian.

The grill was handled by Larry Rawlinson and his helper Dan, great job again guys, keeping us going with food for several hours, everyone loved the hand made burgers and hot dogs donated from Oneco Meats. The side dishes brought in by the families were delicious, thanks to all for sharing with us.

Terry and I enjoyed working with the crew and all the great kids that make up this tournament, It's one of the highlights of our year and we want to thank you for letting us be a part of it.

Heritage Builds Community Pride!

Across the United States of America, more and more towns and cities are discovering the merits of strong action to preserve heritage as a means of strengthening the community. In some cases action has been taken to enact broad heritage preservation legislation at the local or state level. In some cases, where a site or an area has national significance, a federal designation process has been enacted.

To our north, dozens of Canadian municipalities have also latched on to this trend.

According to Goderich, Ontario, Mayor Deb Shewfelt, heritage preservation “fosters a great quality of life and strong pride by our citizens.” He does on to state, “As mayor for over 22 years I have been proud to support the establishing of heritage districts and residential heritage programmes.”

Goderich is a community of just under 10,000 in size in largely rural southwestern Ontario, along the shores of Lake Huron. It boasts three heritage districts in its commercial core and dozens of individually-designated properties throughout the community. Its quest to preserve its community character through heritage designation programs is typical of the efforts of hundreds of communities across Canada which have undertaken heritage designation projects of some nature.

The trend seems to be towards the formal designation of ‘heritage conservation districts’, not unlike the concept of designating the Bayshore Gardens Community to try and preserve its nature and basic mid-20th Century architectural flavor.

Barry Page, immediate past-Chair of the Goderich Municipal Heritage Committee offers the following comment: “In the historic community of Goderich, visitors can see at a glance that significant efforts have been made to preserve the town's built heritage. Not only are heritage residential properties carefully maintained, but the three downtown Designated Heritage Conservation Districts contribute to the municipality's prosperity, vibrancy and charm.

It has been a cooperative effort: “The local town council, together with its advisory Municipal and Marine Heritage Committee, make sure that such built heritage reflects the past character of the town,” according to Page.

What are the outcomes and the benefits for the community and its heritage neighborhoods? “This stewardship is instrumental in sustaining property values and encourages community pride,” says Page unequivocally.

In Mayor Shewfelt's words, “Preserving the past influences the future!”

In the nearby Municipality of Huron East, a little further inland from the shores of Lake Huron,

Economic Development Officer, Jan Hawley, also sings the praises of heritage designation: “As we continue to explore opportunities to strengthen the local economy, there seems to be a correlation between the preservation of the community's heritage fabric and that of the overall vitality of its historic settlements.”

Interestingly, 30 years ago the Town of Seaforth made a bold decision to designate its downtown business district and develop a comprehensive set of guidelines, which would govern heritage restoration over the next three decades....and the rest is history, so to speak. Seaforth, one of the oldest heritage conservation districts in Ontario, also boasts a healthy business mix with very low vacancies.

The residential areas across the community include a large number of designated properties in various neighborhoods.

In comparison, the Village of Brussels, elected not to designate, and up until recently has suffered the complete opposite with many empty storefronts and a decline in building stock.

However, over the last few years there has been a movement by the municipality to help revitalize the area and galvanize the community.

renewed hope for the Village of Vanastra.

“Honouring the Past....Shaping the Future, is a tried and true route to follow,” she claims.

The Bayshore Gardens Heritage Option

While the Bayshore Gardens proposal, in large measure is aimed at preserving a residential area, the community is spotted throughout with business and commercial areas. At its hub is a comprehensive recreation center, park and marina operation. The combination residential, business and recreational service center is an ideal combination for systematic renewal and enhancement.

One way to pull it all together is to combine the potential benefits of a heritage conservation district with the already-established ‘tax incentive fund’ area established earlier this year by Manatee County. It is really quite conceivable that one program could feed the other. The overall benefits would accrue to the community at large.

It could supply the necessary shot-in-the-arm to restore community pride and the general well-being of a number of neighbourhoods that have experienced great deterioration in the past few decades.

Bayshore has been repeatedly invited to partner actively with Manatee County in re-development issues. Manatee has already put Bayshore into a TIF area. Tax dollars are automatically being identified for use here at a future date. Decisions about how those dollars get used is up to the locals - if we choose to have that say.

It will be necessary for us – probably through the Bayshore Gardens Management Board of Trustees – to appoint official representation to liaise with Manatee County. At this time there is a committee emerging to pursue the heritage designation question. The larger involvement in the matters related to TIF has not yet been resolved, it seems, to my knowledge...

Setting up a heritage area or district within Bayshore is seen by many as a self-protective measure to support and sustain what we have, what we are, and what we might go back to be when we were a stronger community. If we choose to be active participants, we can set the parameters for what will be, what is permissible, what is not, and how it all gets funded. Yes, such designation will impose certain restrictions, but the major limitation is against big developers coming in and tearing down our way of life to replace it with condos, massive homes and the related kind of development that would make our generally more humble way of life impossible.

The choice is ours. We can sit by and do nothing – and just hope that things get better. Or we can take an active role, become directly involved, and be the voice that sets the direction for our community and its future.

Paul Carroll

Three Canadian Heritage activists: Mayor Deb Shewfelt, Barry Page, & EDO Jan Hawley – each share strong support for heritage designation strategies to build community pride & set solid directions for future prosperity.

Surprisingly, this has been done by recognizing and celebrating Brussels' rich history. As a result, there has been a renewed interest by the residents of Brussels cultivating a stronger sense of pride.

The Village of Vanastra, former Royal Canadian Air Force Base, Clinton, is located in the southwestern corner of the municipality. Although the area has been in decline since the base closed in 1971, revitalization efforts began late last year and are already showing signs of promise. Property standards are improving, new investment is evident, but most importantly the attitude of those living and working in the community is positive. Through the exploitation of the base's history, a new movement is afoot within the community. People are showing tremendous pride in where they live and work. Of recent, a historic display of the former air force training base, showcased for an entire year at the London International Airport, has now been reconstructed at the newly renovated Vanastra Recreation Centre. To say it's been a hit, is an understatement. There's a buzz throughout the community.

Jan Hawley declares, with some considerable excitement, “People are PROUD! There is

Local Flower Show: “Goin’ To The Dogs”

What do dogs, flowers and plants have in common? Well, love, of course! What is more comforting than a warm, moist nuzzle from a dog, the adorable playfulness of a puppy and its unmistakable puppy’s breath? And what is more beautiful than flowers – carefully and artfully arranged – or the quiet beauty of a meticulously tended horticulture specimen? Manatee River Garden Club has brought together these seemingly disparate concepts to create a fun combination in “Goin’ to the Dogs”, a Standard Flower Show held on November 7 and 8.

View outstanding floral designs arranged within 12 classes, each defined by a Westminster Kennel Club dog category. You will find designs that incorporate a dog crate, a fire hydrant red pedestal, and other dog-related items. Since the Club won top awards for its 2012 and 2013 Flower Shows at the state and national levels, you can expect to see beautiful and creative designs constructed by members of the Florida Federation of Garden Clubs.

Any person may enter her/his plant specimens into more than 50 classes within the Horticulture division. Learn what can be grown in Florida’s Growing Zone 9B.

Division III, Special Exhibits, starts with educational exhibits in Section A, “I’ll Be Dog Gone”. You can learn about:

- Dogs Rescue Flood Plain - Manatee County Dog Park
- Tampa Bay Estuary ‘Scoop the Poop’
- Plants Poisonous to Dogs

In Section B, “It’s a Dog’s World”, view artistic crafts that use plant materials to decorate dog houses and Frisbees. Youth horticulture is exhibited in Section C, “The Pick of the Litter,” with foliage and flowering plants grown by students from Palmetto High School and Lincoln Middle School.

If the Flower Show doesn’t draw you in, don’t miss Paws in the Park on Saturday, November 8 in Lewis Park, just behind the clubhouse. Non-profit organizations will feature their rescue, shelter, adoption and therapy dogs. Demonstrations will be held throughout the day and you can enter your dog into the Dog Parade at 2 PM. There will be “dog oriented” vendors where you can purchase treats and other items for your dog. Lunch and refreshments are available for purchase.

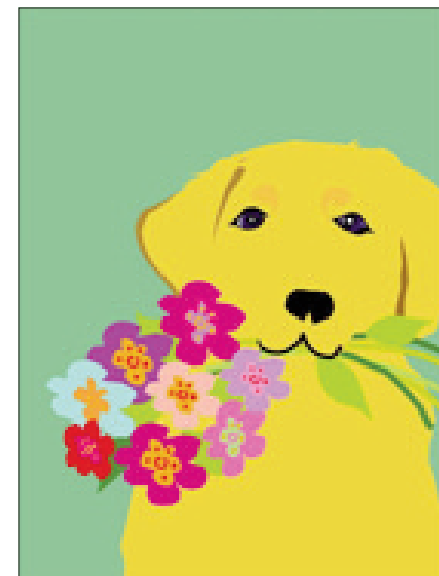

Attend the Flower Show and support those persons who have used their time and talents in presenting these “gifts” for the community to enjoy. Stroll

Knitted Knockers:

Manatee County knitters are creating prosthesis for women recovering from breast cancer

Breast cancer survivors may experience the devastating blow of losing one or both breasts to the disease. Many survivors face the proposition of wearing uncomfortable synthetic prosthetics or undergoing breast-augmentation surgery.

Now a group of volunteer knitters and crocheters in Manatee County are producing 100 per cent cotton prosthetic breasts or ‘knockers’ as the knitters call them from the web site, www.knittedknockers.com. The knitted cotton knocker is light weight, takes the form of a real breast, is soft against the skin and breathable. They are provided free to women who have undergone a mastectomy. The knitted prosthesis is so soft it can be worn immediately after a mastectomy operation and provides a comfortable alternative to other implants. Wearers have said they hardly know they are wearing them. With the silicone prosthesis, they usually can’t wait to get them off.

The Manatee County Knitters and Crocheters Guild have delivered their first 20 prosthetic breasts to Blake Hospital. Several women are continuing to make Knitted Knockers for Blake at the request of the hospital. Most members of the Guild are knitting for Manatee County charities but making the knockers is especially gratifying as one woman’s gift to another.

The Guild welcomes donations to the Manatee County Extension Service for the purchase of yarn. Kits are available for volunteers who offer to knit or crochet the knitted knockers. The kits ensure the necessary level of quality control and provide a level of consistency for the breast cancer survivor.

The Guild meets under the auspices of the Manatee County Extension Service and warmly welcomes new members. Membership is free, come join us at 1303 17th Street West, Palmetto, FL 34221, (941) 722-4524 on Mondays 1-3pm in the Rogers Auditorium.

Come join us in celebrating 100 years of Agriculture & Extension in the state of Florida while we visit a few of Manatee County’s finest agricultural operations. This is a fun-filled, daylong bus tour!

- ⇒ **SMR (Schroeder-Manatee Ranch Farms):** tour the citrus groves and learn about the premium Brangus and hybrid cattle.

Horticultural Therapy

Article and Photographs by Norma Kisida, Master Gardener 2012

Those of us who enjoy gardening and being around plants and nature are not surprised to learn that scientific studies have shown significant health benefits from horticultural activities in many areas including physical, cognitive, social, psychological, and spiritual.

The American Horticultural Therapy Association (AHTA) defines horticultural therapy as the engagement of a client in horticultural activities, facilitated by a trained therapist, to achieve specific and documented treatment goals. This association was formed in 1973 to develop and promote the profession and provide training and professional regulation in the United States; degrees are offered at several major universities.

Horticultural therapy has a long history of being used in psychiatric hospitals, prisons, and with veterans. It is now widely used in hospitals, rehabilitation centers, schools, community gardens, hospices, and many other venues such as for children with special needs.

It is not surprising that many horticultural therapists are Master Gardeners or that many Master Gardeners work closely with horticultural therapists. Manatee County Master Gardener Rebecca Moreland, who has a professional background in public and occupational health, has a deep understanding of how our environment affects our health. She began volunteering six years ago with the Ellenton Tidewell Hospice House, helping tend the four gardens that are maintained for their clients, families, and staff. These gardens include

a beautiful butterfly garden and rose garden along with an herb garden which is kept on the lanai to be enjoyed by patients, family, and friends. There is also an orchid house and the orchids are moved inside the house as they bloom. Shortly after starting to volunteer with hospice, Becky became a Master Gardener to learn more about the plants and how to care for them. One of her activities is making and delivering arrangements from the gardens. She finds that it stimulates patients and opens conversations about such subjects as gardening and cooking, and the recipients enjoy both the flowers and fragrances.

Patti Grant is a horticultural therapist who trained at Colorado State University through the Horticultural Therapy Institute. She also completed the Master Gardener training program through the University of California at Davis and was able to combine her background in international public health and love of gardening with horticultural therapy. She is now a consultant in horticultural therapy and provides customized horticultural activities, workshops about the benefits of engaging in horticultural activities, and consultation in therapy specific garden design. She loves sharing the benefits of horticulture and how intimately we are connected to nature and our world.

If you are interested in learning more, Patti will be conducting a workshop which includes hands-on activities on November 15 from 9:30-11:30 am.

Letter to The Editor

Bayshore Covenant Church Holiday Bazaar & Bake Sale

Raffles, Coffee & Donuts too!

November 22nd
9:00 am til noon

Bayshore Windmill Village
603 63rd Ave West

(just east of 14th Street at Bayshore Gardens)

Dear Bayshore Gardens Residents,

We happen to have a Bayshore candidate with a good shot at the District 6, Commissioner at Large seat.

Terri Wonder is challenging incumbent Carol Whitmore. Terri has been hard at work networking and campaigning for almost a year now. Why?

Lately we are witnessing rampant development and while nothing is wrong with (controlled) development, much is threatening environmentally sensitive areas. Much is threatening the reason we live here in Manatee County.

The west part of Manatee is surrounded by water. Terri sees our remaining grass flats and mangroves threatened and they definitely are. Mangroves not only offer protection in hurricanes, but offer wildlife, marine life sanctuary and protection for fish to spawn and grow. Shore lands as well as inland are being gobbled up while existing developments still have vacancies. Terri wants to see the older commercial areas and neighborhoods like ours, revitalized.

Terri is alarmed at the serious situation the deep injection well near the Port presents. We should all be alarmed: pumping toxic and dangerous waste below our aquifers seems to be an "engineering" risk. Unlike other places in the U.S., Florida sits on *porous limestone*. Because of that we could have a higher failure rate for these wells. (The engineered containment for toxic waste at Piney Point has failed often) Our precious source for fresh water is at risk in this case.

Both tourists and residents have said they come to Manatee County because "it is a coastal area that still feels easy and relaxed; with lots of Florida nature to enjoy". Let's keep it that way for all of us. Let's get behind Terri Wonder and put her in office.

Before you vote, check her out at: <http://terri-wonderforcommissioner.com>

Your neighbor, Suzanna Young

Signs of the Times

A Letter to the Editor in an early October Herald edition praising Carol Whitmore's achievements ended with the phrase: "....."Her campaign signs are everywhere." Yes, they are but what was not mentioned was that the yard signs for Terri Wonder's campaign were being systematically removed in the middle of the night.

There is no evidence that Ms Whitmore condones this vandalism but it does further taint her campaign which has already misrepresented facts by suggesting that Terri Wonder does not vote. Perhaps this was done to draw attention away from Whitmore votes on issues such as Long Bar Pointe and toxic injection wells. We have had too much dirty politics and it is time for those running for office to respect the citizens they hope to serve. That is why I appreciate the clean campaign being run by Bayshore Gardens resident Terri Wonder.

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

GO FIGURE! by Linda Thistle

The idea of Go Figure is to arrive at the figures given at the bottom and right-hand columns of the diagram by following the arithmetic signs in the order they are given (that is, from left to right and top to bottom). Use only the numbers below the diagram to complete its blank squares and use each of the nine numbers only once.

YOU are challenged to insert numbers 1, 2 and 3, as necessary, in vacant squares of the diagram above so that each horizontal and vertical row totals the amounts indicated at right and below.

One catch: No number is to appear beside itself. Number 1 cannot be adjacent to another 1, or 2 to 2, etc., up or down or to either side.
